

Courses at NHS

Student Advisory Committee

NHS Course Catalog

- Description of every class offered
- Graduation requirements
- Programs with IT or Healthcare pathways
- Suggestions for 4-year plans

New Courses

AP Music Theory- an option for students who take any music class to expand their knowledge

AP Comparative Government and Politics

Many A/B day classes, which will be discussed on the next slide!

A/B Courses!

A/B day courses will be running next year at NHS. These courses will allow students to take more classes with less time, and there are a multitude of interesting A/B classes to choose from. Each class will be 0.5 credits.

These classes include:

- English Comp
- Psychology
- Consumer Chem
- Spanish 1a
- Spanish 1b
- Art History
- Intro to Engineering
- Videography
- Chorus
- Jazz and Rock Workshop
- Stagecraft
- Lifetime Fitness
- Physical Education
- Learning Strategies
- Academic Support
- SAT Math Prep
- Lab Physics
- Work Exploration
- Creative Writing
- Intro to Linguistics

Classes Student Union Members Are Excited For

AP Comparative Government and Politics- this is new, so many people are excited to try it out

AP US History- a fan favorite sophomore course at NHS, which is a great intro to the AP section of the history department

AP Physics 1- this is a hard, math-based science class, but many people take it and like it

AP European History- Both the favorite humanities class and the most challenging due to intensive and engaging discussions, coursework, and teaching. Students say this class feels like a family.

AP Biology- transitioning to our new teacher is going great and many students are enjoying this year round course

Smith Classes- great opportunities for juniors and seniors to take classes not offered at NHS and get the feel for a different environment

AP Chemistry- a fantastic class that gives a more indepth look in chemistry for those who enjoyed honors or non-honors chemistry

Genocide studies- An elective mostly taken by seniors that thoughtfully teaches the stages and history of genocides across the world preparing students to identify and prevent.

Feedback

- AP Comparative Government and Politics is not offered for sophomores. Upon asking, we learned that the course would likely be too difficult for them, so it is not being offered.
- There are multiple English classes for seniors to take, however some seniors are facing difficulties deciding on what class to take.
 - This was not helped by the elimination of the Westfield State Dual Enrollment class

Any Questions?
