

Downtown Northampton: Rapid Recovery Program Community Meeting #2

The **Rapid Recovery Plan Program** is designed to support our business community through actionable, **project-based recovery recommendations** unique to the individual economic challenges and COVID-related impacts in our downtown. These plans, facilitated by the Commonwealth and standardized across communities, will be developed in coordination with the City of Northampton.

The meeting will share findings to-date from the recovery planning process and **introduce an initial list of projects** for potential implementation. An opportunity to share feedback will be provided.

All Northampton community members are invited to join. Please save the date and join us:

Tuesday, June 15th, at 6pm
