Erosion & Sediment Control Plan For Small Construction Sites (<1 acre)

Project / Site Name: _____

Project Street / Location: _____

Assessor's Map: _____ Parcel(s): _____

Estimated Area to be Disturbed (ft²): _____

Name/Contact (phone & email) of Property Owner: _____

Name/Contact (phone & email) of Developer (if different from owner):

Name/Contact (phone & email) of Person Responsible for Erosion & Sediment Control Inspections:

Name/Contact (phone & email) of Person Responsible for Erosion & Sediment Control Maintenance:

Construction Schedule (estimated start/end dates and timing of major excavation and site work):

Brief Description of Project (attached additional information as necessary): _____

Erosion & Sediment Control Drawing/Sketch

Include a drawing or sketch of the proposed site work, grading, area of disturbance and proposed erosion and sediment control measures including details/typicals of sediment barriers, stabilized construction entrance and other erosion and sediment control structures on and adjacent to the site.

Erosion & Sediment Control Measures:

Check all that apply and attach additional descriptions and details of the measures that will be implemented. See DPW Policy on Erosion & Sediment Control for Small Construction Sites for more information.

- Natural Resource Protection
 - Minimize Area of Disturbance
 - Soil Stabilization
 - Stockpile Protection
 - Perimeter Controls (describe): _____
 - Stabilized Construction Entrance
 - Inlet Protection
 - Runoff Diversions
 - Sediment Removal
 - Dewatering Sediment Removal
 - Outlet Protection
 - Construction Waste Management
 - Post-Construction BMP Protection
 - Dust Control
 - Inspection and Maintenance
Inspect erosion and sediment control measures once every 7 days and before and after rain events at a minimum.
 - Other: _____
-

Owner's Certification

I, the undersigned, hereby certify that the attached Erosion and Sediment Control Plan submittal includes all items required by the DPW Policy on Erosion and Sediment Control for Small Construction Sites and certify that all erosion and sediment control measures will be installed, inspected and maintained in good working order throughout the length of the project.

Owner's Signature: _____
