

Care of Mildly Ill Campers Policy

- [REDACTED] First Aid kits are equipped to handle most minor injuries and illnesses; including scrapes, cuts, blister, abrasions, etc.
- If [REDACTED] can resolve the minor injury or illness, then we will continue with our activities, and notify the guardian at the end of the camp day.
- If the camper is not able to comfortably complete the day with the camp, then [REDACTED] will contact the guardian and make arrangements to evacuate the camper to the care of the guardian.
