RE: Terrace Lane Reconstruction Project – 2025

Dear Resident,

The City of Northampton will be reconstructing Terrace Lane this construction season. The project includes:

- Replacing the water main and water service connections in the public right of way;
- Full depth reconstruction of the roadway with new gravel base and two courses of pavement;
- Installation of cape cod asphalt curb along the entire length of the street;
- Paving driveway aprons;
- Replacing sidewalk curb ramps, and milling and overlaying pavement at the intersection of Hatfield Street; and
- Replacing sewer manhole castings and drainage catch basins.

The City has contracted with A. Martins & Sons, Inc. of Ludlow, MA to complete construction. The contractor expects to begin work the week of August 25. Work hours will typically be from 7:00 am to 4:00 pm. Occasional extended afternoon hours may be required to complete a work item in process.

The contractor will notify residents in advance of limited water service interruptions that will be needed to make new service connections. The contractor is required to maintain resident access to and egress from residents' property and be able to accommodate delivery and emergency vehicles as needed. Temporary blockage of driveways and the roadway will occur to complete the work, and we appreciate your cooperation and patience.

The construction schedule, along with other DPW projects, is updated weekly on the department's webpage, www.northamptonma.gov/dpw. The DPW will have a representative on site during construction. If you have questions or concerns regarding the construction, please address them to the DPW representative or email the DPW at dpwinfo@northamptonma.gov.

We look forward to a successful completion of this important project and thank you in advance for your support and cooperation.
